BETHELHEM LEGESSE

(214) 738-3535 | legessebl@gmail.com | LinkedIn | Portfolio | GitHub

PROFILE

Passionate and creative Web Development student with experience in Javascript and a background in project management. Excellent communicator with a proven aptitude for quickly adopting ti new environments and meeting organizational goals through individual contributions and team collaboration. Driven by genuine curiosity and eager to leverage my technical and problem-solving skills to tackle unique and interesting challenges.

PROJECTS

LIT&WINE

Lit&Wine is a recommendation engine that helps an avid reader pair their choice of genre or author with the corresponding wine. Taking user's city weather and book genre into account, the app generates five different books and perfect types of wine to go with them. Language Used: Javascript | URL: https://blegesse-git.github.io/Project-1/

DAY PLANNER

This is a calendar application that allows user to save events for each hour of the day. This app will run in the browser and feature dynamically updated HTML and CSS powered by jQuery. Using Moment.js library, the app is able to work with current date and time.

Language Used: jQuery | URL: https://github.com/blegesse-git/Day-Planner.git

WEATHER DASHBOARD

Using the OpenWeather API to retrieve weather data for cities, the weather dashboard takes in user and displays current weather data and five day forecast. This app runs in the browser and feature dynamically updated HTML and CSS.

Language Used: jQuery | URL: https://blegesse-git.github.io/homework5/
